**NOTICE OF APPLICATION  
SOUTHERN CALIFORNIA GAS  
COMPANY'S REQUEST TO INCREASE  
RATES AND REVENUES FOR THE  
2024 GENERAL RATE CASE  
APPLICATION FILING A.22-05-015**

**WHY AM I RECEIVING THIS NOTICE?**

On May 16, 2022, Southern California Gas Company (SoCalGas<sup>®</sup>) filed a General Rate Case (GRC) application with the California Public Utilities Commission (CPUC) requesting authority to increase revenues for 2024-2027. SoCalGas is requesting to increase revenues by \$767 million (20.9% increase over 2023 expected revenues) in 2024. This application also includes requested increases of \$292 million (6.6%) in 2025, \$267 million (5.6%) in 2026, and \$413 million (8.3%) in 2027. The cumulative requested revenue increase is \$4,889 million.

Every four years, SoCalGas is required to file a GRC application with the CPUC to set annual revenues. Annual revenues are the total amount of money a utility is allowed to collect through rates in a given year. The revenues requested in this application pay for the costs of owning and operating gas infrastructure (excluding the cost of purchasing natural gas for SoCalGas customers).

If the CPUC approves this application, SoCalGas will implement new revenues in gas rates beginning on January 1, 2024. This will impact your monthly bill.

(Continued inside )

**WHY IS SOCIALGAS REQUESTING THIS RATE INCREASE?**

- To continue to invest in its gas delivery system to enhance safety and reliability, and to manage risks that could impact its employees, customers, and/or system;
- To invest in the gas system and technologies that advance clean energy for customers and the environment;
- To continue to invest in the needs of customers by enabling diverse customer service capabilities, and to empower customers with information and tools to better manage their gas use;

- To meet regulatory and compliance requirements driven by system safety and reliability and environmental compliance; and
- To invest in efforts and programs to maintain a highly-trained, qualified, and diverse workforce.

**HOW COULD THIS AFFECT MY MONTHLY GAS RATES?**

If SoCalGas' rate request is approved by the CPUC, the typical residential monthly bill using 36 therms per month would increase by approximately \$8.62 or 13.7% per month in 2024, compared to estimated 2023. Individual customer bills may vary.

**HOW DOES THE REST OF THIS PROCESS WORK?**

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SoCalGas'

application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.
